Watkins, CEO of Entrex Carbon Market.

“Our sales team has found substantial interest from the global carbon community which offers ‘country based’ carbon offset trading platforms to support national profitability from their carbon resources – but further taking those country/government carbon profits and provide them into an entrepreneurial based ESG ‘country based’ capital market – traded and settled stateside under US institutional regulations” said Thomas Harblin, Partner.

“Our desire to accelerate the OTC compliance while managing through the operations aspects of these huge sales opportunities allows PIPE investors to enjoy the short-term yield offered – while gaining a judicious risk-adjusted equity position” continued Watkins.
