Entrex Carbon Market Posts NIBA Video Presentation

Boca Raton, FL, September, 26, 2023: Entrex Carbon Market today announced it has posted the 2023 National Investment Banking Association presentation from earlier this month. It is available at the following Link: [“Entrex 2023 NIBA Presentation”](#)

“The timing of the 2023 NIBA conference in Florida was perfect as Entrex focuses on building market momentum and enhancing our Broker Dealer production bonds and equity capital initiatives” said Stephen H. Watkins CEO of the Entrex Carbon Market. “We had over a half-a-dozen broker dealer firms approach us with interested in joining our syndicated offerings.”

“Entrex has been a great supporter of the NIBA conferences over decades of working together. NIBA offers an efficient solution to maximize exposure to the Broker Dealers who keep the American capital market the most efficient in the world” Watkins continued.

“Entrex’s regulatory and security mindset creates a whole new category of products for the voluntary carbon market. Entrex’s offerings provide Wall Street oversight and Wall Street Research of the underlying projects and carbon offset securities – which brilliantly offer buyers and traders comfort without the historical underwriting of projects and offsets firms have had to do in the past” said George D. Sullivan, CEO of Net Zero Analysis and Design Corp.

“Our operations and sales office in St. Petersburg, Florida helps to assemble global, scalable, carbon projects. Our team uses the production financing bonds to produce carbon offsets, typically over a 210 day period, which then securitized the project’s “product”, the carbon offsets, into our CarbonEase product” said Thomas Harblin, Partner in the Entrex Carbon Market.

About Entrex Carbon Market:

The Entrex Carbon Market created the first regulatory compliant trading portal for securitized “compliance-grade” carbon offsets. Entrex’s portal offers hundreds of carbon offset securities inclusive of short-term production financing bonds branded “NewLeaf Bonds” through the compliance-grade, institutionalized, carbon offsets, branded “CarbonEase” which are each regulated securities from inception through retirement. Each CarbonEase security allows global broker/dealers to access quality carbon offset products to serve their institutional clients which have third party assurance from beginning to end, affirmation of ownership and third-party research providing comfort to their institutional clients.
